

Biagi Bros. Code of Professional Conduct

All BIAGI BROS. employees are expected to perform all of their job responsibilities to the absolute best of their ability, with the highest degree of professional conduct.

BIAGI BROS. recognizes the importance of each employee, and will endeavor to always respect the rights and sensitivity of each employee. Likewise, each employee will respect each other and interact in a professional manner. It is important to both BIAGI BROS. and its employees that there be a harmonious, professional working rapport among all employees.

It is essential that each employee communicate honestly, succinctly, and informatively. At times communications may have to be instructive, but they do not need to be critical. Needless to say, petty communications are not deemed professional and therefore are not permitted.

If an employee's failure to perform the employee's job duties hampers your work performance, please bring that to the attention of your immediate supervisor.
